

• Scale-Aqua Descaling Products for other application

- a Scale Aqua 10 – Descaling Liquid Compound (For MS Surface & Hard Scale)
- b Scale Aqua 11 – Powder compound for Soft Metal (Copper and Stainless Steel)
- c Scale Aqua 12 – Alkaline Descaling Chemicals
- d Scale Aqua 13 – Silica Descalants
- e Scale Aqua 14 – ETP Chemicals
- f Scale Aqua 15 – STP Chemicals
- g Scale Aqua 16 – RO Chemicals
- h Scale Aqua 17 – Bio culture chemicals

• Scale-Aqua Industries De-scaling chemical Benefits

- a Improve Flow of water
- b Remove Contaminants
- c Lower Operating Pressure
- d Improve Heat Transfer Rate
- e Prolong System Life
- f Lower Operating Costs
- g Only one type of chemical to all type of application
Condenser, Heat Exchanger, Cooling Tower, Mold etc.

Before

After

Our Esteemed Clients

Common Application

- Power Plants • Chilling Plants • A. C. Plants
- Injection Molding • Compressors • Gas Turbines
- Induction Furnaces • Evaporative Condenser
- Gear Box cooling • Heat Exchangers • Steam Turbines • Generator Sets • S.E.P. Condensers
- Plastic Molding Extruder Machines

Address

Nashik Office: 603, 6th Floor, Business Center, Near Jogging Park, Govind Nagar, Nashik- 422009, Maharashtra, India.

Indore Office: "SHREE SHYAM ENCLAVE", 68, Flat No- FS-1, 2nd floor, Swasthya Nagar, Indore- 452001, MP, India.

SCALE-AQUA

Industrial Water Treatment & De-scaling Chemicals

SCALE AQUA CHEMICAL 3 in 1

About Us

• Scale-Aqua Industries, as the name suggest is a Industrial water treatment company Manufactures chemicals which are Anti-Scalent, Corrosion Inhibitors and prevent Bio-sides formation in your water transfer area. Also, Scale-Aqua Industries who has been providing professional and value added consultancy for De-scaling chemicals used to remove mineral scales from metal surfaces in contact with hot water such as Boiler, Condenser, Heat Exchangers, Evaporators, Cooling Tower and many more.

• Scale-Aqua Industries is engaged with providing Technical Services to customers. Our De-scaling chemicals is more of a broader term and it may included application directed product used for heat transfer. Our company manufactures typical De-scaling Chemical compositions include individual or proportionate blend of corrosion inhibitors, scale remover, high silica De-Scalent chemicals.

• Our aim is to provide best alternative to mechanical descaling owing to its ease of use and application methods. We manufactures chemicals which are high end superior protection to industrial equipment's from scaling.

• Scale-Aqua Industries De-scaling chemicals can be customized for offline descaling and online descaling based on the nature of scale and system concerned. These chemicals are even suitable for descaling equipment's in sensitive industries like pharmaceuticals, oil refineries, power plants, food and beverage industries. The need for chemical cleaning during the lifetime of the equipment has become a recognized fact & should be accepted as a routine maintenance practice. Frequencies of service cleaning depend on the Water Chemistry and Operation conditions.

Product & Description

For Open Recirculating Cooling Water System- Cooling Tower

• Common Problems

- a Scale
- b Corrosion
- c Fouling
- d Microbiological Contaminants

• Open Recirculating Cooling Water Treatment Chemical Solutions

- a Scale Aqua 01- Non -Oxidizing Biocides
- b Scale Aqua 02- Dispersants
- c Scale Aqua 03- Scale Inhibitor (Carbonate Silica Inhibitor)
- d Scale Aqua 04- Corrosion Inhibitors
- e Scale Aqua 05- Series of On line Cleanness

For Closed Recirculating water System- Boiler, Condenser, Heat Exchanger.

• Common Problems

- a Corrosion
- b Scaling

• Closed Recirculating water Treatment Chemical

- a Scale Aqua 06- Softening Agent, Antiscalants
- b Scale Aqua 07- Oxygen Scavenger
- c Scale Aqua 08- Corrosion Control Agents
- d Scale Aqua 09- Multipurpose Chemicals (Scale, Alkalinity Boiler & Oxygen Scavenger)
